

BLACK HOLES

Black Holes are Kate (bass, vocals) and Martin (drums). The alternative-rock duo from Prague brings an original bass-drums concept not seen previously on the Czech scene.

"I always approached bass more like a guitarist and I've been experimenting a lot with different pedal effects," says Kate. "We want both of the instruments to stand out and now there is more room for it," adds Martin. The band really enjoys the contrast between a massive guitar sound and melodic pop vocals.

In November 2017, the band released their first two singles and opened gig season with the shows supporting Jane Weaver (UK) and Baretta Love (DE). In September 2018 the band released their first music video for a new single Black Hole, which can be heard on several Czech radio stations and the biggest Czech music TV station Óčko. Black Holes are touring Czech Republic clubs this fall. Their first EP is set for release early next year.
